

Volcanic activity of Mount Agung, Bali

(Advice as at 4pm on Wednesday 20 Sept 2017, AEST)

With the volcanic activity at Mount Agung, Bali, Indonesia increasing significantly and with recent extension of the evacuation zone around the volcano by Indonesian officials, we are now issuing a cover cut-off time in anticipation of travel and other services being impacted.

For policies purchased up to 4pm (AEST) on Wednesday 20 September 2017, cover is available where you have no option but to change your travel plans because your service provider cancels or restricts services as a result of any volcanic activity. Where your trip has not yet begun, cover is available for the lesser of rearrangement or cancellation costs.

Where travel has begun and you have no option but to change your travel plans, your policy covers the following benefits when they are listed under the plan you have purchased: medical expenses overseas; travel delay; cancellation costs or additional travel and/or accommodation expenses resulting directly from a provider cancelling or restricting your scheduled public transport services.

For policies purchased after 4pm (AEST) on Wednesday 20 September 2017, cover is not available for claims arising from any volcanic activity, including any new ash cloud events, as such events are no longer unforeseen.

This restriction of cover also applies to any travel plans made or changed after 4pm (AEST) on 20 September 2017 where you are impacted by the volcanic activity.

We are monitoring the situation and will advise when this position changes. Refer to your providers following service interruptions; they can best assist with making alternative arrangements.
